"Esta minha seleção representa um passeio entre obras-primas e pequenas peças e objetos menos visíveis que tive o gosto de descobrir dentro da coleção do MNAA. As obras e os objetos escolhidos têm em comum a sua estreita relação com a vida e os gestos humanos, dos mais épicos aos mais vulgares, de forma a refletir sobre a proximidade entre a arte e a vida, sobre o caminho comum entre o homem e as suas criações. Estas obras e objetos – vindas, muitas vezes, de contextos extremamente distantes, no tempo e no espaço – estão mais próximos de nós do que poderíamos pensar, porque toda a arte foi, num certo momento, contemporânea, para aqueles que a criaram e para os que primeiro a experienciaram."

"This selection represents for me a walk-through between masterpieces and little overlooked personal discoveries that have in common a relationship with human life and gestures, from the most epic to the overly ordinary ones, in order to reflect on the proximity of art and crafts with life, on a shared path between the human beings and their creations. These artworks and objects, that are often coming from contexts that are far in time and space, are nearer to our understanding than we would think, as all art has been contemporary to those people that created it and that first experienced it."
